### Maintenance Program Results in Like-New Performance for Pacific Pride, Bimbo USA

CSM Catalytic Oxidizer at Pacific Pride's La Miranda bakery

CSM Worldwide, Inc. recently completed a thorough maintenance assignment at Pacific Pride's La Miranda, CA bakery. Commissioned in 1994, CSM's efforts provide Pacific Pride with "like-new" performance for the bakery's Model 50A oxidizer.

This integrated maintenance project, which is part of CSM's Complete Compliance Program (CCP), includes the following elements:

- **Catalyst testing cleaning and replacement**
- **Pressure transmitter calibration**
- **Process Blower maintenance and lubrication**
- **Oven to CatOx duct work cleaning**

"Routine maintenance of this type helps to increase the performance of the oxidizer, while at the same time, improve the overall productivity of the facility," commented Donald Ciccolella, Vice President, Sales & Marketing for CSM. "One of our Field Service Engineers was able to identify the needs of the plant and plan a maintenance schedule that would minimize down-time avoiding any negative affect on the productivity of the plant."

# CSM Bakery Hall of Fame

Almost 15 years ago, CSM began to help bakers by designing and building catalytic oxidizers for oven emission abatement. During this time, many fine and long-lasting business relationships have been established. Because of this, CSM is pleased to announce the formation of the "CSM Bakery Hall of Fame" to recognize the many companies who have provided repeat business to CSM over the years. To all of our valued customers we say thank you for your continued confidence in CSM, and we look forward to many more years and successful projects together.
